

are there any apps in india for event management to aggregate vendor services in one space

✱ Answer ✨ Sources · 16 🔗 Steps

Yes, there are several **event management apps in India** that aggregate vendor services and provide an all-in-one platform for event organizers. These platforms offer features such as vendor management, ticketing, registration, attendee engagement, and more, making it easier to coordinate and manage events of all sizes.

Key event management apps/platforms in India that aggregate vendor services:

- **Whova:** A comprehensive mobile solution for conferences, corporate meetings, and exhibitions. It offers tools for event registration, attendee networking, agenda management, and can connect organizers with various service providers needed for events ¹ ² .
- **Eventify:** An Indian event management app that handles everything from interactive agendas to AI-powered networking. It is designed to streamline all aspects of event planning and execution, including vendor coordination ³ .
- **EventTitans:** A global event management platform that allows users to create and list events with ease and includes features for managing vendor services ¹ .
- **Dreamcast:** Provides a range of services for virtual, hybrid, and in-person events, including live streaming and vendor management tools ¹ .
- **Eventzilla:** Offers registration, ticketing, and event marketing, and can help automate vendor and attendee management ¹ ⁴ .
- **Eventtia:** An all-in-one event management software that simplifies planning, registration, payments, logistics, and more. It enables organizers to manage vendors, ticketing, marketing, and attendee engagement from a single platform ² .
- **Cvent:** A cloud-based event management solution supporting venue sourcing, registration, check-in, and vendor management for hybrid and in-person events ² .
- **Bizzabo:** Focuses on B2B events and conferences, offering tools for attendee registration, vendor management, and on-site operations ² .

How these platforms help with vendor aggregation:

- They provide **integrated dashboards** for managing multiple vendors (catering, decor, AV, logistics, etc.).
- Many offer **marketplaces** or directories of trusted vendors and service providers.
- Some platforms enable **direct booking and communication** with vendors within the app.
- They centralize payments, contracts, and logistics, reducing the need for manual coordination.

Summary Table

| Platform | Vendor Aggregation | Event Types | Key Features |
|-------------|--------------------|--------------------|---|
| Whova | Yes | Conferences, expos | Registration, networking, vendor management |
| Eventify | Yes | All | Agendas, networking, vendor coordination |
| EventTitans | Yes | All | Event listing, vendor management |
| Dreamcast | Yes | Virtual/hybrid | Streaming, vendor management |
| Eventzilla | Yes | All | Ticketing, vendor/attendee management |
| Eventtia | Yes | Virtual/in-person | Registration, payments, vendor integration |
| Cvent | Yes | Hybrid/in-person | Venue sourcing, vendor management |
| Bizzabo | Yes | B2B, conferences | Registration, vendor/on-site operations |

These platforms are widely used in India and are suitable for both small and large-scale events, offering a **centralized space to manage all vendor services** efficiently ^{1 3 2}.
